Disney
Fox
Mattel
Netgear

A little about me

10+ years of industry experience
Print production master
Unabashedly helpful
Speaks in sassy one-liners

When not shoving pixels around or sketching out concepts for a sweet logo, I'm generally a completionist in video games along with my wife, slinging around unusual Magic: The Gathering cards with friends at Endgame in Oakland, or jamming out to the latest tunes from Kettel or Disasterpeace.

Experience

Ogden Costa Creative Group
November 2013 – Present
Graphic Designer
Pleasanton, CA

Feeling very fortunate to get to do design and production of Disney Movie Club catalogs and inserts. Redesigning and coding the outdated company website (still in progress) has been a great experience as well.

Nagy Design
February 2012 – November 2013
Creative Production Lead
San Ramon, CA

I managed all print production after the creative phase, including coordinating with our print vendors, which was an incredible and rewarding challenge. I also became very skilled at retouching photos of wine bottles in beauty shots or as standalone bottles.

Lucid Fusion
March 2011 – November 2013
Freelance Designer
Irvine, CA

It's always a joy for me to redesign a logo, and while I was here I got to do the logo for a clinical documentation app, ChartWise 2.0. This was also much of my first foray into UI design, creating image assets for ChartWise, Power Balance, and Sage.

Sonnentag Design
April 2011 – February 2012
Graphic Designer
Hermosa Beach, CA

Laying out Mattel's Code of Conduct booklet with a number of client-side restrictions was quite the challenge. Now multiply that by 9 different languages! Being able to provide options for Fox title treatments was also one of the most unique experiences I've had.
